DEPARTMENT PROVIDED COURSE QUESTIONS:

Items in this section were selected by ECON for inclusion on this evaluation.

Please identify what you consider to be the strengths of the course (or section).

Comments
The GSI is clear in explaining concepts.
Tati was great at selecting exercises that were actually useful in understanding the material and she was also super patient when answering questions.
The explanations are clear.

Please identify area(s) where you think the course could be improved.

Comments
I think in some sections she spent too much time on a single exercise, which made us cover less material than we should.
The sections can be better structured.

What advice would you give to another student who is considering taking this course?

Comments
Start the problem sets early and go to all classes/discussions.
Office hours are very helpful!
